- Adjustable for Various Sized Trees
- Round Construction – Easy on Stock
- Greaseless Design
- Simplistic Operation
- Few Moving Parts

Leading the Way!

Category 2

3 Point Hitch Lift Tower

Lemar's 3 Point Hitch Lift Tower is a universal attachment that can be ordered in a category 1, 2 & 3 pin sizes. Lemar has integrated a hydraulic cylinder into the center link. This hydraulic center link allows you to adjust the angle of the spade frame to compensate for uneven ground conditions.

The Lemar 3 Point Hitch Lift Tower gives you ample down pressure making it possible to dig effectively. The 3 Point Hitch Lift Tower also raises the spade out of the ground far enough to basket or transport comfortably.
